

P_Lset754_AdminAppCon
troller

```
graph TD; A[P_Lset754_AdminAppController] -- Lset755_AdminAppController --> B[Lset755_AdminAppController];
```

The diagram illustrates a dependency between two classes. A light blue rounded rectangle at the top is labeled 'P_Lset754_AdminAppController'. A green line extends downwards from its bottom edge, then turns right to the right, and then turns down again to point at the top edge of a light green rectangle at the bottom. The label 'Lset755_AdminAppController' is placed next to the horizontal segment of the green line.
